

## Maximize productivity

**Hose Protectors and Swivel Connections**  
Protect hoses from debris and allow them to rotate freely

**Upper and Lower Suspensions**  
Reduce vibrations transferred to the carrier, thus extending boom life

**Trapezoidal Piston**  
Generates a progressive sustained shockwave that builds intensity throughout its duration, resulting in efficient breaking production

**Fully Hydraulic Breaker Operation**  
With an enclosed energy chamber ensures maximum energy with every blow

**Automatic Pressure Regulator**  
Maintains the correct operating pressure, resulting in constant energy and maximum repetitive performance

**Energy Recovery Valve**  
Recycles recoil energy, adds it to the next blow, and prevents residual energy from being absorbed by the carrier boom and hydraulics

## We are distributors of these brands for HAMMERS

ATLAS COPCO – KRUP – CHICAGO – MAVERICK – MAX POWER – NPK

## We have experience in sales of parts for these brands\*

ALLIED – CASE – CATERPILLAR – DOOSAN – DYNATEC  
EVERDIGM – HANWOO – RHINO – FURUKAWA – KENT – FRD  
HUSKIE – IB TECH – INDECO – JSB – JISUNG – KOMAC  
LEBOUNTY – STANLEY – MINCON – MONTABERT – TRAMAC  
RAMMER – ROCKHAMMER – ROCKRAM – SOOSAN – YOMAMOTO

\*We are not distributors of these brands - They are registered trademarks of each manufacturer.
